- Bikini photo
- Image navigation
- Thumbnails
- Prices
- Mobile layout
- Desktop layout

Other drops

- Drop 02
- Drop 03
- Drop 04
-  Waiting for names/photos/information from your friend

STATUS:  MONEY LAUNDERING DONE /  3 DROPS WAITING

5. Functionality

- Navigation anchors

- Mobile menu
- Gallery
- Image switching
- Gallery close
- Social links
- Buttons
- Scrolling
- Mobile interactions
- Check browser console for errors

STATUS: ● **ALMOST DONE**

The browser-console check is something we'll do near the end, rather than interrupting the design work now.

6. About

This is our **next major section**.

- ABOUT section exists
- ABOUT navigation works
- Brand statement exists
- Nairobi reference
- Get the actual BLUC FSHN story from your friend
- Decide what information the designer wants public
- Decide whether to add designer information/photo
- Finalize About copy
- Style/polish the section

STATUS: ● **NEXT**

7. Contact

- CONTACT navigation works
- Footer exists

- Instagram
- TikTok
- Nairobi, Kenya
- Get actual contact information from your friend
- Add email if they want one displayed
- Decide whether to add WhatsApp
- Make the contact section functional

STATUS: 🟡 AFTER ABOUT

🔗 8. Overall Design Polish

After the main sections are finished:

- Typography consistency
- Spacing consistency
- Image sizing
- Hover effects
- Transitions
- Desktop spacing
- Tablet spacing
- Mobile spacing
- Check for anything visually crowded

STATUS: ⌚ LATER

🔍 9. SEO

- Page title
- Meta description
- Favicon
- Search Console verification
- Sitemap submitted
- URL inspection
- Open Graph image

- Final metadata check
- Check Google search appearance

STATUS: ● MOSTLY DONE

10. GitHub + Vercel

- GitHub repository
- Main branch
- Vercel deployment
- Live website
- Push remaining changes
- Final production test

STATUS: ● FINAL STAGE

11. Final Testing

At the very end:

- Browser console
- No broken images
- No broken links
- No TypeScript errors
- No horizontal scrolling
- Desktop test
- Mobile test
- Gallery test
- Navigation test
- Production/Vercel test

STATUS: ⌚ FINAL STEP

12. Portfolio / GitHub

Since this is also your **software-engineering portfolio project**:

- Clean code
- Remove unused code
- Organize assets
- README
- Project description
- Tech stack
- Screenshots
- Live website link
- GitHub link
- Explain what you built
- Final GitHub commit

STATUS:  **LAST STEP**
